DETAILED ACTION

Drawings

1. The drawings were objected to as failing to comply with 37 CFR 1.84(p)(5). Correction is noted and the objection is withdrawn.

Claim Rejections - 35 USC § 112

2. Claim 15 was rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Correction is noted and the rejection is withdrawn.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,565,192 to Shapiro.

Shapiro discloses a kit having at least one first elongate pin (28'); at least one second elongate pin (24'); and a clamp (10).

5. Claims 13, 14, 16 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,129,908 to Petersen.

Petersen discloses a kit having at least one first elongate pin (81), a plurality of second elongate pins (Column 4 lines 50-64); a clamp ((FIGS. 1-4); a coring bit (100); and an annular guide collar with a plurality of apertures (Column 4 lines 50-64 and FIG. 4).

Art Unit: 3731

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 13-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 5,919,196 to Bobic et al. in view of U.S. Patent No. 5,092,572 to Litwak et al.

Bobic discloses first and second elongate pins, a coring reamer, and a coring bit (Column 4 line 42-Column 5 line 43). Bobic discloses the claimed invention except for the clamp adapted to clamp an allograft. Litwak teaches a clamp adapted to hold an allograft in place and within the surgical field (Column 2 lines 17-27). It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the kit of Bobic with the clamp of Litwak in order to hold the allograft in place and within the surgical field.

Response to Arguments

8. Applicant's arguments with respect to claims 13-17 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3731

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
